

DESCRIPTION

Bench #01 belongs to our Bathroom Set design by Charlotte Juillard.

This set, composed by a basin, a towel rack, a bench and a side table, combines metal and stone, giving more lightness to a massive stone of such an austere elegance.

The stone has been intentionally separated from its support in order to give the product an effect of suspension.

The metallic structure, black coated with RAL 9005, support the glazed lava stone oval basin. Basin drain not included in the supply.
